rest in our relations with the world at large, and it is satisfactory to note that their importance is growing every day. French capital is pouring fast into the country, and Frenchmen are investing heavily in estates and lands in the Republic. The representatives and partners of leading French firms now pay the R. Plate yearly visits, and it looks as if French enterprise is likely to take firm root

the Republic. We export much more to France than we import from her, the reverse of our relations with England. Our exports to England are a small fraction only of the imports, far from shewing any falling-off, which are increasing.

On the heels of the failure of the Orient Banking Corporation and of the Ceylon Company we now receive the news of that of Messrs

Ward & Gut of New York for no less than ten millions of dollars; this is, indeed, mammoth failure.

Messrs. Bemberg, Heimendahl & Co. have forwarded to the Provincial Government a valuable project to extend the Western Railway, for account of the Government, from Saladillo to Bahia Blanca, from 9 de Julio to Trenquehuén, from Junin to Italo, from Italo to Bahia Blanca and from Saladillo to Ferrari. The Government to emit bonds, with mortgage on the lines being built, bearing 6 1/2% interest and 1 1/2% amortization; these to be taken up by a foreign Syndicate at 90 1/2%. The Syn-

date to issue these bonds according to the advance of the works, and any quotation of the bonds over 92½ to be divided between the State and the Government. On the other hand should the quotation of the Ensenedad loan fall under 94 0/0 at the period of issue of the new bonds, a corresponding reduction to be made in the aforesaid arrangement about the price of the new issue. The Syndicate promises to advance to the Government on the bonds 20 millions francs at 6 0/0, and ½ 0/0 above the market rate.

quarer. These railways will be constructed at a cost of £18,500 per kilometre. This mammoth proposal bears so many staggering points of analogy with that of Messrs. Honoré and Bowen that it is unnecessary to state that the market has been taken by surprise. Opinion is very adverse to the proposal, and it is devoutly hoped that the Government will discontinue the scheme; whatever merits the new proposal may bear, they at all events clash with the concession given to Messrs. Honoré and Bowen, and the Government, to say the least, are in a very awkward position.

least, is bound to respect the contract of the enterprising American gentlemen.
